**MARCH 22, 2019 (TORONTO, ONT.)** – Today, OVO’s **Baka Not Nice** has shared three new tracks, together titled *no long talk.* The project consists of coast-to-coast scorcher “**My Town**” feat. **Giggs**, the ominous “**30**” and strip-club-ready “**Caddy’s**” feat. **Juicy J**. The trifecta of songs is a deeper dive into Baka’s life experiences, both past and present. The music is built on the foundation where actions speak louder, dedication to the craft is key and loyalty is paramount. The expression “no long talk” is West Indian Patois, commonly used to express frustration with someone who talks too much. Baka’s *no long talk.* arrives amidst his live tour dates in the UK as support on the *Assassination Vacation* arena-tour with Drake. It is also the first offering from the Toronto native since his debut mixtape *4Milli* was released in 2018 on OVO Sound/Warner Bros. Records.

In addition, Baka Not Nice recently announced that his breakout hit song “Live Up To My Name” from the *4milli* mixtape has earned RIAA Certified Platinum status in Canada and RIAA Gold status in the United States. “Live Up To My Name” has been streamed over 100 million times since its release.
