**June 14, 2019 (Los Angeles, CA)** – Ali Gatie wears his heart on his sleeve in his new song “It’s You.” The track exposes the Canadian artist’s vulnerable side as he opens himself up to love, risking any heartache that may follow. *“If I’m ever gonna fall in love, I know it’s gonna be you,”* Ali croons over the sweet acoustic melody tinged with a faint R&B undertone.

“It’s You” emerged as a continuation to Ali’s smash hit “Moonlight,” which already has nearly 3 million views for its recent visual and over 38 million streams across platforms. *“After releasing my heartbreak single ‘Moonlight’ and seeing how much of a lasting impact it had on people, I wanted to continue the narrative so I wrote ‘It’s*

You," he explains. "A song that describes the feeling of trying to balance the fear of heartbreak with the excitement of love. It carries on the story of heartbreak that 'Moonlight' painted and illustrates how love can be scary and beautiful at the same time." Check out "It's You" [HERE](#) and stay tuned for more to come!
