**February 2, 2024 (Los Angeles, CA)** — Today, Warner Records artist **Warren Zeiders** releases his first track of 2024, “**Heartbreaker.**” Written by **Zeiders**, **Julian Bunetta** (*Thomas Rhett, Niall Horan, Kelsea Ballerini*) and **Mags Duval** (*The Highwomen, Lindsay Ell, Teddy Swims*), the song finds **Zeiders** heartsick, reflecting on his shortcomings in love as he displays a softer side of his signature twang. In addition to new music and a new album on the horizon, **Zeiders’** debut radio single “[Pretty Little Poison](#)” is currently Top 5 (and climbing) at Country radio and just broke the Top 30 on *Billboard’s* Hot 100 chart.

**Zeiders** is a poster child for digital accolades, and he’s building an impressive hard ticket stock as well. His 26-date ***Pretty Little Poison*** 2024 North American Headlining Tour is set to kick off in February and is already completely sold out, and his wildly successful touring footprint is evident that the Pennsylvania native is much, much more than a streaming numbers success.

2023 was a banner year for **Zeiders**, who released his debut album ***Pretty Little Poison*** in August. **Zeiders** capped the year at **No. 1** on ***Billboard's Emerging Artist Chart*** (week of Dec. 2) and notching **1.7 billion+ career streams**. The album's title track debuted on *Billboard's* Hot 100 chart, peaking inside the Top 30, earned RIAA Gold Certification and currently sits in the Top 10 of *Billboard's* US Country Airplay Chart. His ***Pretty Little Poison*** Fall 2023 tour saw 54 sold-out dates, including a sell-out at Nashville's Ryman Auditorium.
