Their 1994 breakout album Dookie, which sold over 10 million and achieved diamond status, is widely credited with popularizing and reviving mainstream interest in punk rock, catapulting a career-long run of #1 hit singles. In 2004, Green Day released the rock opera American Idiot which captured the nation’s attention, selling more than 7 million copies in the U.S. alone and taking home the Grammy Award for Best Rock Album. Mojo declared “It’s exhilarating stuff, the kind of record that sets new parameters as to what is possible from a punk rock’n’roll band in the 21st century.” In 2010, a stage adaptation of American Idiot debuted on Broadway to critical and commercial acclaim.
