The lead single and title track from **Green Day’s** upcoming studio album, *Father Of All...* is already Top 5 at both Alternative and Rock radio. The band showcased their high energy hit on *Jimmy Kimmel Live!*, and *Rolling Stone* took note, calling the performance “a fast-paced rocker that finds frontman Billie Joe Armstrong using his upper register to lend a sweet edge to his depiction of life inside a maelstrom of chaos and paranoia.”

Tickets are on-sale and going fast for **Green Day's** global *The Hella Mega Tour* presented by Harley-Davidson with fellow artists Fall Out Boy and Weezer. Tour dates and tickets are available [here](#).
