

SMILEY 2021

A product of the streets of Toronto, Smiley turns danger into art. He began releasing music in 2018 with his street classic *Buy. or. Bye* and built a buzz around his originality, backed with street credibility and the ability to bring his first-person experiences to life in his music. He followed that project with *A Tape To Remember* and *Road To Buy or Bye 2 (The Playlist)*, blazing a trail for himself as he fed the appetite of the streets with new music. Narrating his story in real-time Smiley's influence also has been touted by *The FADER* and hometown hero Drake, as well as revered amongst the community in the burgeoning Toronto music scene.
