## ABOUT GORILLAZ

Created by musician Damon Albarn and artist Jamie Hewlett, Gorillaz is singer 2D, bassist Murdoc Niccals, drummer Russel Hobbs and Japanese guitar prodigy Noodle. The BRIT and Grammy-winning virtual band formed following a collision of mishaps, meetings and pure luck to blow up a pre-digital world. Based at Kong Studios in West London, Gorillaz settled into a life of musical innovation with an eye-wateringly exciting roster of collaborators, a list that includes musical legends, geniuses and future stars from Elton John to Little Simz, MF Doom to Jean-Michel Jarre, Grace Jones to slowthai, Kali Uchis to Sidiki Diabaté, plus so many more. With seven albums to their name, *Gorillaz* (2001), *Demon Days* (2005), *Plastic Beach* (2010), *The Fall* (2011), *Humanz* (2017), *The Now Now* (2018) and *Song Machine: Season One – Strange Timez* (2020), Gorillaz is a truly global phenomenon, achieving success in entirely new and unique ways, touring the world from San Diego to Syria, Montevideo to Manchester and winning numerous awards including the coveted Jim Henson Creativity Honor.
